

Index of Subjects

Volume 58, 1970

- Aortic lesions**
 - in rats with hypertension, 305
- Ascites**
 - in rats following ureter ligation, 51
- Bacterial endocarditis**
 - experimental, in opossums, 295
- Cats**
 - germfree, experimental feline viral rhinotracheitis in, 269
 - pulmonary microcirculation in, in vivo observations of, 337
- Cellular development**
 - exercise and age factors and, in rats, 185
- Cerebellar degeneration**
 - thiamine deficiency in rats and, 219
- Chickens**
 - avian encephalomyelitis in, lymphoid systems in pathogenesis of, 105
- Cornea cells**
 - lipid storage in, induced by serum, 403
- Cytomegalovirus infection**
 - chronic, in submaxillary glands of mice, pathogenesis of, 255
- Dogs**
 - Lafora's disease in, comparative study of, 509
- Edema**
 - following ureter ligation in rats, 51
- Encephalomyelitis**
 - avian, lymphoid systems in pathogenesis of, in chickens, 105
- Equine viral arteritis**
 - vascular lesions in, 235
- Erythro-leukophagocytosis**
 - electron microscopy of spleen and, 451
- Feline viral rhinotracheitis**
 - experimental, in germfree cats, 269
- Glomerular basement membrane**
 - ultrastructural study of synthesis of, 531
- Glomerulus**
 - after transplantation, electron microscopic study of, 85
- Hemorrhagic shock**
 - alveolar and vascular ultrastructure in, 353
- Iron metabolism**
 - in rat hepatic parenchymal cells, 419
- Lafora's disease**
 - in dogs, comparative study of, 509
- Liver cells**
 - potential changes in, following CCl₄ intoxication, 499
- Lung disease**
 - in Appalachian soft-coal miners, 557
- Mice**
 - pathogenesis of chronic cytomegalovirus infection in submaxillary glands of, 255
 - ultrastructural study of, following whole body and hemithorax radiation, 481
- Monkeys**
 - tularemia vaccine administered to, host-parasite relationship in, 329
- Necrosis**
 - experimental ischemic renal arterial, 69
- Opossums**
 - experimental bacterial endocarditis in, 295
- Pituitary**
 - in rats, MAD-induced changes in, 377
- Platelets**
 - interplatelet zone, 19
 - secretory pathway of, 31
- Pulmonary fibrosis**
 - ultrastructural study of mouse and rat following whole body and hemithorax radiation, 481
- Pulmonary microcirculation**
 - in cats, in vivo observations of, 337
- Rats**
 - edema and ascites following ureter ligation in, 51
 - exercise and age factors in cellular development of, 185
 - with hypertension, aortic lesions in, 305
 - iron metabolism in hepatic parenchymal cells of, 419
 - MAD-induced changes in pituitary of, 377
 - thiamine deficiency induced cerebellar degeneration in, 219
 - ultrastructural study of, following whole body and hemithorax radiation, 481

- Renal lipid accumulation**
 - platelet aggregate embolism and, 283
- Sickled hemoglobin**
 - fine structure of, 1
- Skin reactions**
 - delayed, composition, morphology and source of cells in, 201
- Spleen**
 - anatomy and microcirculation of, 127
 - erythro-leukophagocytosis in, 451
 - phagocytosis of colloidal carbon, 157
- Tularemia vaccine**
 - host-parasite relationship in monkeys given, 329
- Ureter ligation**
 - in rats, edema and ascites following, 51
- Ventricular infarction**
 - right, model for production of, 471
